

TaskMap[®] Professional Edition

Processes Made EasySM

The simplest way to communicate, manage and publish business processes and procedures.

Within hours, managers and staff will be creating a better way for your business to operate. Publishing web-based process maps that everyone will understand, all linked to key data sources, documents, web pages, and IT systems.

Create and edit

Update and manage

Publish and communicate

Typical Applications

- Communicate current work processes
- Analyze and improve processes
- Create “future state” process maps
- Develop and leverage best practices, e.g., Six Sigma, ITIL, Sarbanes-Oxley, PRINCE2
- Reduce risk and improve compliance at a low cost
- Shorten ERP and enterprise application process definition and rollout
- Shorten training cycles for staff
- Increase Efficiency
